

Attachment I8

Maintenance Depot

Each Bidder is required to submit as part of its Bid all the drawings and documents referred to in this Attachment I8 below, in full compliance with all requirements of the Maintenance Depot Contract (including for the removal of doubt the Engineering Chapter and the Electrification Chapter included therein).

1. Architectural Design

- 1.1 Bidder shall submit architectural drawings describing the outline of his proposal with respect to the Maintenance Depot (including for the removal of doubt the Depot Site).
- 1.2 The architectural drawings will contain at least one plan layout on a scale of 1:200 and a section on a scale of 1:100. The amount of sections included in Bidder's proposal will be determined by Bidder in accordance with the proposed structure and its complexity.
- 1.3 The architectural drawings shall demonstrate the connection between the proposed architectural design and the Maintenance of up to forty six (46) Units in Supplier Maintained Fleet, as well as the other different activities to be performed by Supplier in the Maintenance Depot, including but without limitation Final Acceptance Tests, inspection duties, etc., in a way that will enable ISR to verify the suitability of Bidder's proposal to (i) ISR's requirements in the Maintenance Depot Contract and the Maintenance Chapter; and (ii) Bidder's Maintenance Services Proposal under Attachment I9 to Volume A.
- 1.4 The architectural drawings shall also reflect:
 - 1.4.1 the connections to ISR's rail infrastructure and to the access roads to the Depot Site;
 - 1.4.2 the infrastructure connections between Ashkelon Site and the Maintenance Depot (such as connections between feed infrastructure, technical input and energy rooms); and
 - 1.4.3 the proposed electrification system,all based on the plans included in Attachment B1 (in Hebrew: "ינספח ב'1") to the Engineering Chapter (in Hebrew: "הכרך ההנדסי") attached to the Maintenance Depot Contract.
- 1.5 Bidders are referred to Section 3 of Attachment 1 to the Maintenance Depot Contract (with respect to information documents (in Hebrew: "מסמכי מידע")), regarding the status of Attachment B1 to the Engineering Chapter.

2. Depot Equipment

Bidder shall submit a list of the Depot Equipment required in the Maintenance Depot for all activities contemplated to take place in the Maintenance Depot under the Agreement and the Maintenance Chapter.
