

	section	Potential Bidder Questions	Answer
Technical specifications			
Appendix A	Required services	<p>According to Required services in Appendix A, the Assessment Strategy Plan shall cover all the relevant areas as requested by the project – ERW (Earth Works), CW (Civil Works), TRW (Track Works), SIG (Signalling), E&M ((Electromechanical – TVS (Tunnel Ventilation), FPW (Fire Protection Works), Emergency Systems and COMM (communication systems), ENE (Electrification), Rolling Stock (if needed) and Integration.</p> <p>Regarding the ISA for signalling, and based on our experience, we have assumed that the signalling supplier will provide the ISA for the specific application of ERTMS and electronic signalling (Safety Assessment of Specific Application of ERTMS and Electronic Signalling). Please confirm our assumption is correct</p>	<p>It is hereby clarified, that whether or not a current project has their own internal ISA process, the winning bidder for that same Tender Project as established in the tender documents, will still be required to supply ISA services on the operational and integrative level (all system interfaces). The final assesment report submitted by the Winning bidder for the PTO approval must take into account all other reports.</p>
