

**Tender N.42005 For Supply of Second hand Ballast Bogie Hopper Wagons ("Wagons") for Israel Railways Ltd. ("Tender")**

Question n.	section	Questions	Answers
<b>Technical specifications</b>			
1	1	Faccs wagons are specified for 80 tons ( 23 tare + 57 load) ? Is this a disqualifying factor ?	No
2	General	Can we offer alternative wagons with superior characteristics ? ( Note : these wagons meet the basics requirements of the tender while offering many advanced characteristics in terms of noise, dust emissions while unloading ballast and much greater efficiency in the process of "spreading" ballast ; which therefore rapidly offsets higher initial costs, even in a used+overhauled condition )	YES
3		we have from the 80th size 12.74 lengthXunder frame 11.5 dist 7.5 axel 20 tons. weight 80 ton. we have no ISR we do not have TSI. As for speed- our standard is Faccs without SS.As for handle- 15 kg is impossible	See details below
	general		
	general	size 12.74 lengthXunder frame 11.5 dist 7.5	YES
	general	axel 20 tons weight 80 ton	YES
	general	we have no ISR	The question is not clear
	2	we do not have TSI	YES
	speed	our standard is Faccs without SS	According to TS M-04-206-2020 5.1 Operating Speed: The wagons shall be able to run unrestricted in "S" traffic (100 km/h operating speed) according to UIC 432 OR fully loaded, or where the axle loads of the most heavily loaded bogie may not exceed 22.5 ton and "SS" traffic (120 km/h operating speed) in empty condition.
	handle	15 kg is impossible	Please declar the maximum force to operate

4	8 - Hopper Wagon Technical Specificati on M-04- 206 - 2020	Is it possible to offer wagons with equivalent systems? For example, in the technical specifications there is a requirement for KNORR (compny) brakes.	No, KNORR system is obligatory
5	7 - Hopper Wagon Technical Specificati on M-04- 206 - 2020	Is there a requirement for the Y25 bogie or can an equivalent be offered?	No,Y25 bogie is obligatory
6	4.1 - in Hopper Wagon Technical Specificati on M-04- 206 - 2020	the requirements involve only 1435mm or also 1520mm standard?	Only 1435 mm standard gauge is required

General Terms and Conditions			

1	13.2	<p>Our company already cooperate with another company in the rail field in Israel ; currently supplying together bogie overhaul (parts and labour) for the Jersualem Tram, under the form of direct sale to Israeli tram operator/maintainer : is such single supplier scheme a mandatory requirement for the Tender ?</p>	<p>1.Experience in tram field is not relevant. 2. single supplier is not a mandatory requirement for the Tender</p>
2		<p>Can you give an indication of total number of wagons required? The spec only states the Bidder should have at least 15</p>	<p>At the moment, ISR intends to Purchase fifteen (15) Wagons. Additionally, during the Agreement Period and/or the Optional Period, ISR, at its sole discretion, shall have the option to purchase from the Supplier additional Wagons</p>
3		<p>Would you consider buying HXA wagons and modifying / converting them to meet your full specifications?</p>	<p>Only wagons that complied with TS M-04-206-2020 are required</p>
4		<p>Subject to an order close to the full fleet of 110 wagons – our company may consider undertaking the relevant conversion as part of the sale, subject to additional agreed time for this. Is this something you may also consider?</p>	<p>At the moment, ISR does not intend to purchase a full fleet of 110 wagons- only fifteen (15) Wagons. Additional purchase of wagongs is an option,during the Agreement Period and/or the Optional Period, as per ISR sole discretion.</p>
